## **Back to you:**

- Creativity is of the utmost importance, for example let's say you are an artist, can your art be applied to promote my company? Or you are a model or an actor; can we produce promotional videos and do this without actually being a salesperson? Absolutely YES!
- Are you an investment guru? We all can do something with such a new company like this one and grow together to success.
- I am not a salesman or even a director, I am just a computer guy and I sell every day and direct my company, well my computer abilities allow me to use the Internet to sell and manage.
- So if you are thinking "this is not for me" you may be just right but not because you cannot is because you don't want to do it!

## **THE PRODUCT:**

Different from static SEO, Hits1k is dynamic, it adapts to the

Goals of the business owner,  
 Business type and unique characteristics,  
 Keywords provided by the site owner,  
 Most successful keywords,  
 Keywords that people are looking for,  
 Market conditions,  
 Search engines,  
 Geographical areas where the client or prospect is visiting from,  
 Business model and theme of the website,  
 Topics that the clients are looking for,  
 Speed of the lines,  
 Business trends,  
 Market trends,  
 New conditions that the Hits1k learns,  
 Business geo-location, optimized to respond within the town, 15 miles, and/or

the closest.

The reaction times to these changes are instantaneous; it carries on intelligent conversations and dialogs with all the parties, the site owner, the client's requests, the search engines.

It deeply analyzes all and each parameter, processes them based on the guidelines that the business owner has ordered and tries to close a sale, when it cannot reach a happy conclusion, it notifies the webmaster of each event, all this at the speed of light.

It is a well-trained sales artificial person who will take good care of all and every client that shows at the business window, the website.

This technology is so efficient that we can assure thousands of hits a day for the client's website or their money back!

If the client has used pay per click technology, knows that it can be very expensive. With this Hits1k system the client only pay \$349 per month for unlimited clicks. This fee never goes up, for as long as the client keeps the service, forever!

## **Additional Features**

## **Let's talk**

Let me suggest a small change in the way you and I communicate, phone has become quite inefficient, don't always old technologies? Use Skype, you can see me online and also text each other previous to our conversation; the quality of the sound is superior and we can exchange text, files and our pc screens, so the interaction between us is much better.

## **Skype: HITS1K**

No scheduling necessary I am available 9am to 3pm PST 7 days a week.  
But if phone is your only way please call me to (716) 712-4736.

## **This is the employment and non-disclosure agreement**
